Sign in to Dashboard →

1 Website

To begin, click on the **Admin Dashboard Website** to view your school's data from a bird's-eye view

2 Login

On the login page, please enter your School Code/User ID and password (Note: Once onboarded, your School Code will be provided by the Saathi Team.)

1 Left Panel

Navigate through different sections of the dashboard to access school insights, manage learning activities, monitor teachers and students, and access other administrative tools.

2 School Overview

Get a comprehensive overview of your school's performance, including total classes, active students, quizzes played, questions solved, and overall learning activity.

3 Urgent Issues

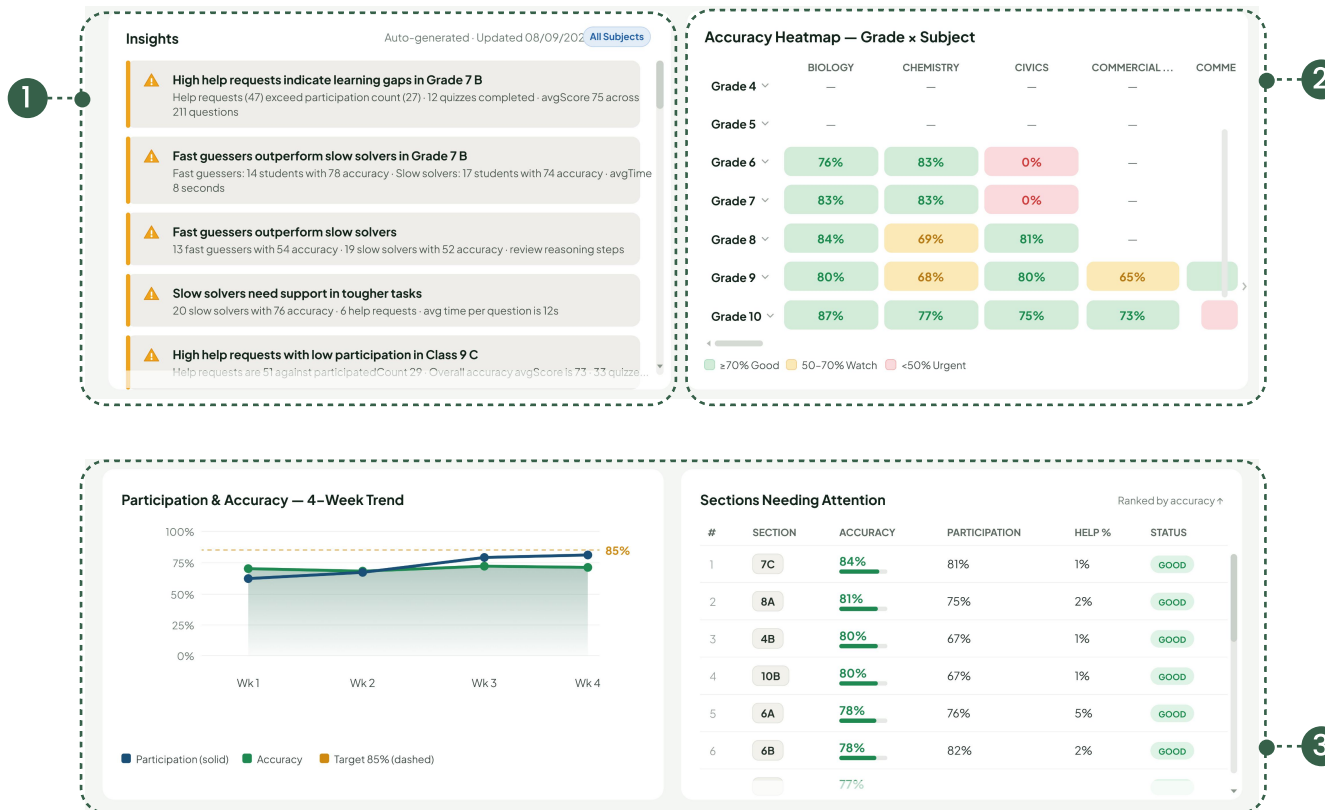

Stay on top of critical issues that need attention, such as classes or students showing low accuracy, high help requests, or other areas requiring timely intervention.

4 In-class Health

Monitor the health of classroom learning through key metrics such as participation, accuracy, help requests, blank responses, response time, and teacher activity.

5 Insights and Heatmap

Identify learning trends and performance gaps across grades and subjects. Use auto-generated insights and the accuracy heatmap to understand areas that need attention and support.

1 Insights

Get actionable insights from classroom data, highlighting learning gaps, unusual performance patterns, and areas that may need attention.

2 Accuracy Heatmap

Compare accuracy across grades and subjects to quickly spot strong-performing areas and topics where students may be struggling.

3 Participation & Accuracy

Track participation and accuracy trends over time, while identifying sections that may need additional support based on their performance.

03 Teachers

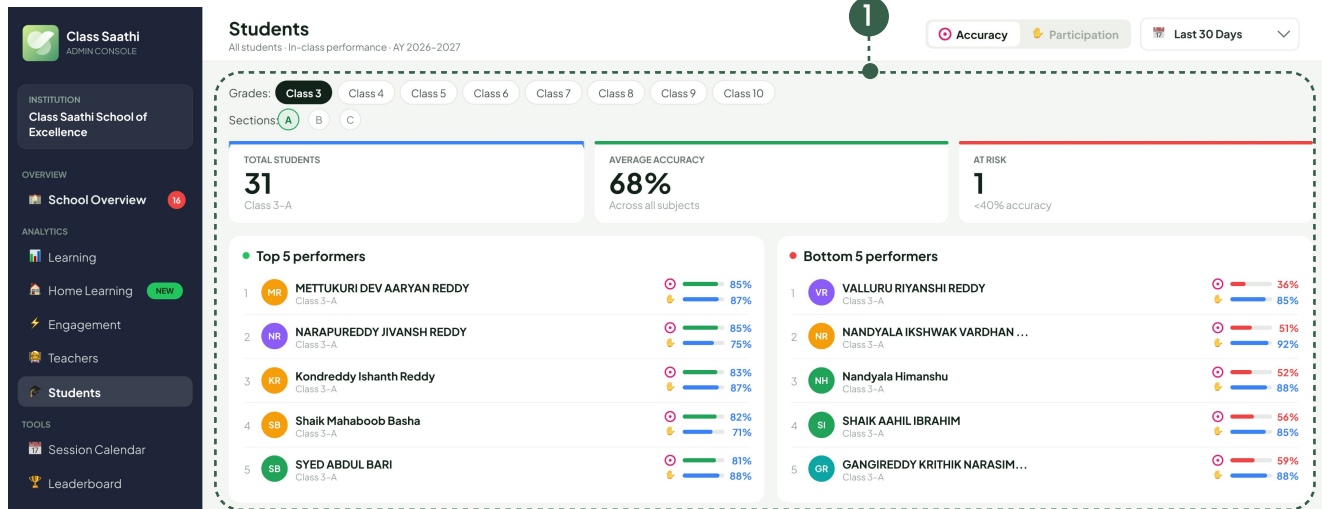

1 About Teachers

Get an overview of teacher activity across subjects, including the number of active and inactive teachers and their overall performance.

2 Performance

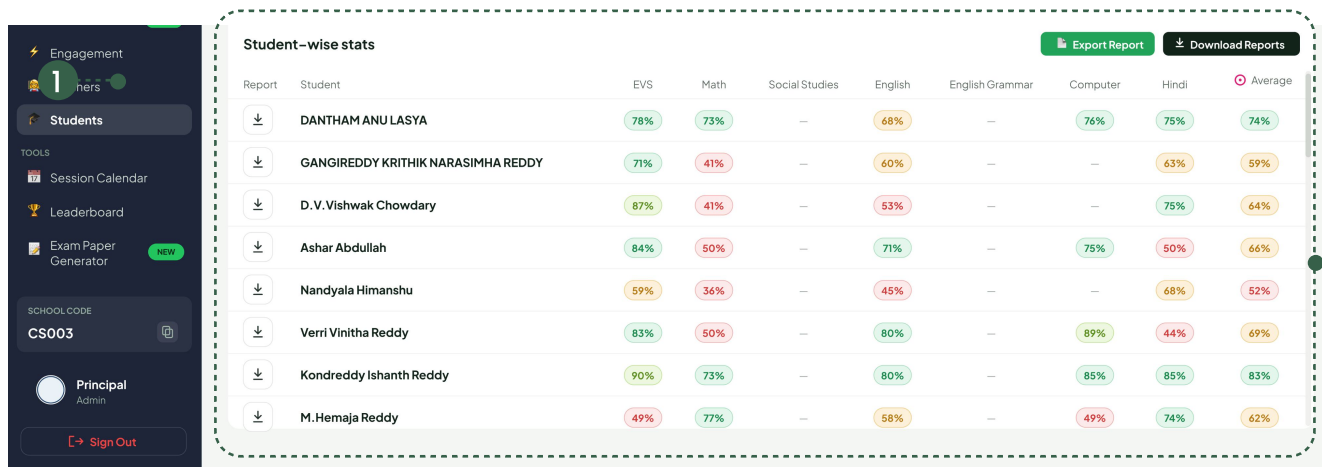

Review teacher performance across grades and subjects to identify strong areas and spot subjects that may need additional support.

04 Students

1 In-class Performance

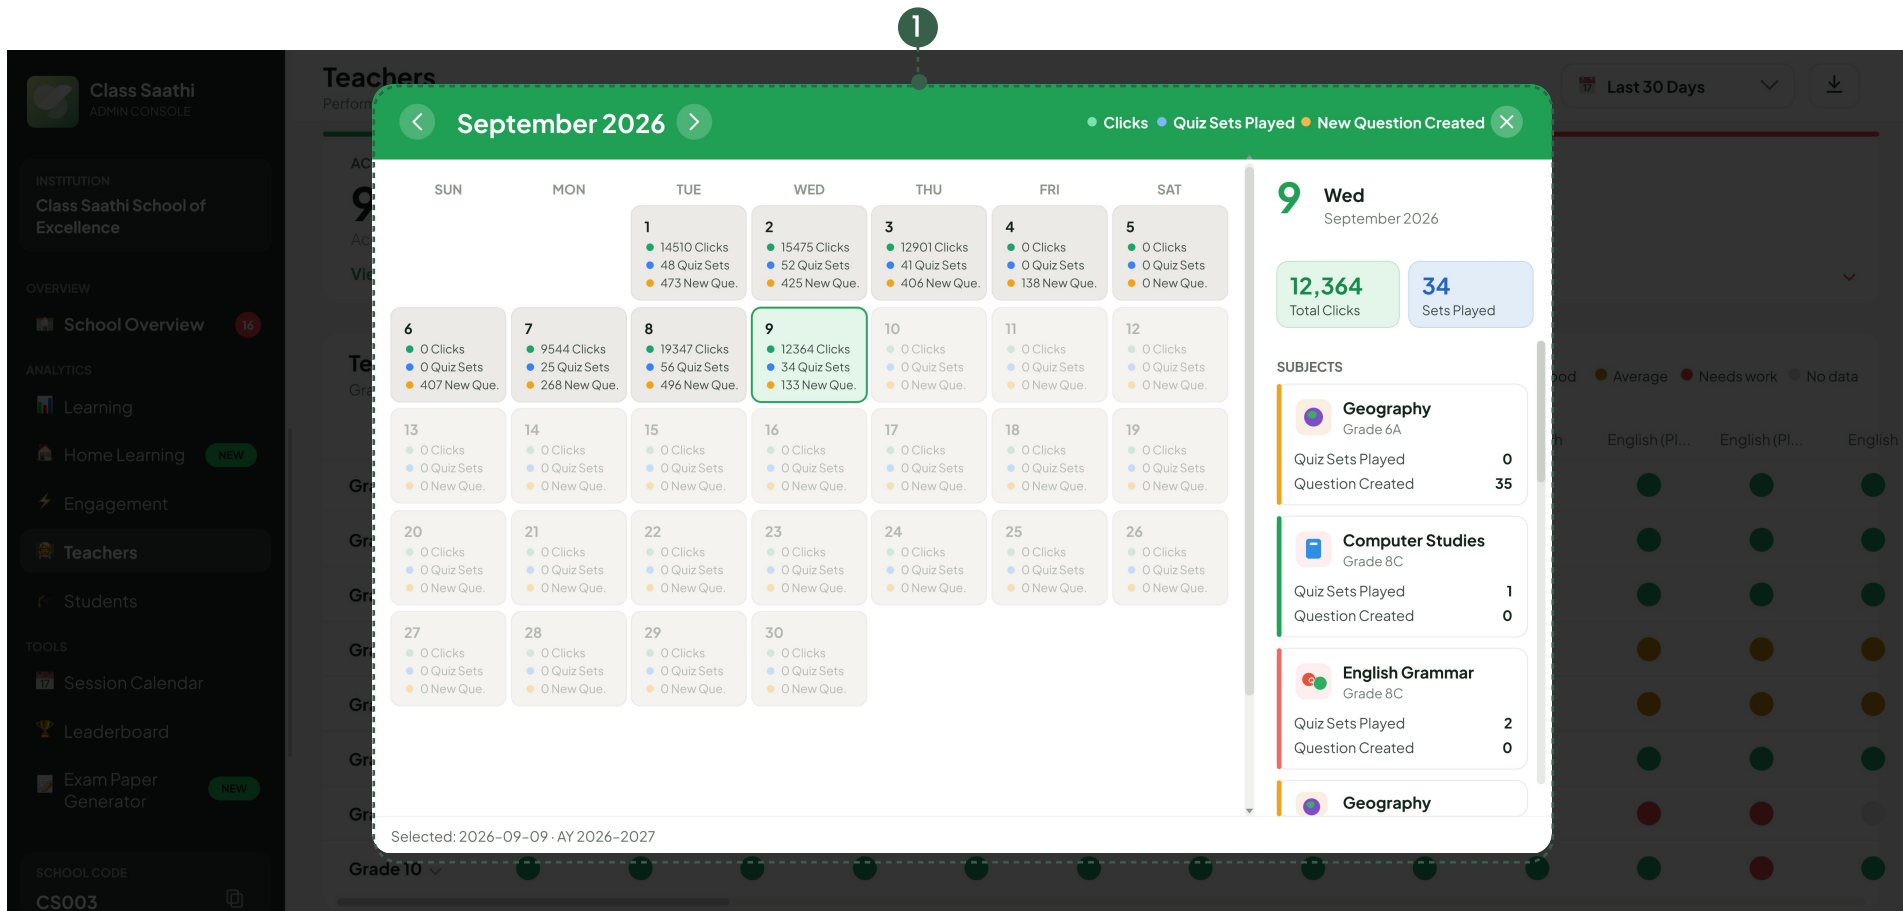

Get a quick overview of classroom performance, including student accuracy, participation, and students who are performing particularly well or may need additional support.

2 Student-wise Stats

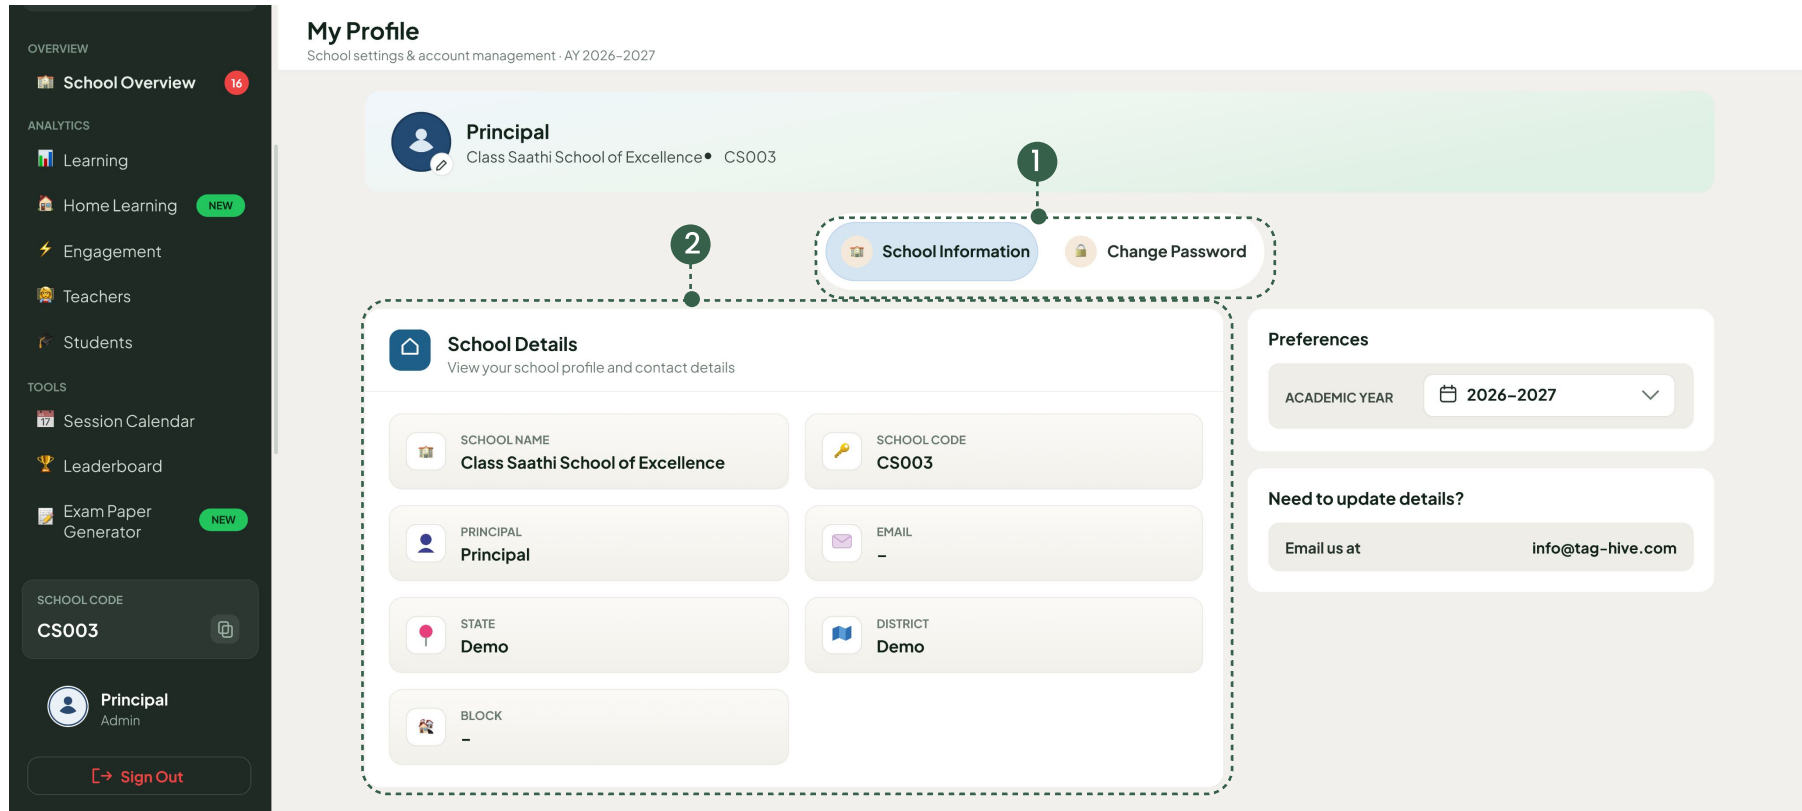

View detailed performance data for individual students across subjects to track progress, compare results, and identify areas for improvement.

05 Calendar

1 Calendar

Track day-to-day learning activity across the school, including clicks, quiz sets played, and questions created, with a detailed subject-wise breakdown for each selected date.

1 Tabs

Switch between School Information and Change Password to manage your school account details and security settings.

2 School Details

Access and manage essential school information, including school details, contact information, and administrative records.
